EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mrs. Lynn Blank on February 17, 2004.

The application has been amended as follows:

Claim 21, lines 5 and 6 delete terms "derivative of"

Specification

Please replace the paragraph beginning at page 1, line 4 with the following re-written paragraph:

--Reference is made to commonly assigned, co-pending U.S. Patent Applications:

Publication number 2003/0099815 by Dontula et al. filed of even date herewith entitled "Ethoxylated Alcohol Intercalated Smectite Materials and Method"; Publication Number 2003/0100656 by Majumdar et al filed of even date herewith entitled "Smectite Clay Intercalated with Polyether Block Polyamide Copolymer"; and Publication number 2003/0100655 by Nair filed of even dated herewith entitled "Polyester Nanocomposites", the disclosures of which are incorporated herein.--

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In the amendment filed on 12/8/2003 the applicants have amended claims to require an imaging member that comprises matrix polymer and clay and wherein clay is intercalates with block polymer containing hydrophilic block compatible with clay and hydrophobic block compatible with polymer matrix. According to the different independent claims the block copolymer can have either two or three blocks.

The prior art of FISHER (US 6,579,927) as applied against present claims discloses nanocomposite that can be molded. The nanocomposite comprises matrix polymer and clay intercalated with block polymer. The block polymer of FISHER comprises hydrophilic block compatible with clay and hydrophobic block compatible with polymer matrix. The prior art of FISHER does not teach or suggest making imaging members.

In addition to the rejection of the prior art of FISHER, applicant's properly filed terminal disclaimed obviated Double Patenting rejection over co-pending application 10/008,810. In view of the above discussion, pending claims 1-7 and 8-46 are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
